

Landscape Maintenance Contract

Maintenance is defined as the comprehensive care of lawns and garden, trees and shrubs. This may include mowing, trimming, feeding, planting, mulching and/or weeding, depending on your specific needs. It does not include landscape design and/or construction. These services are available through NewLand Nursery and Landscaping, but will be charged separately.

Doc's fee is a standard \$35.00/hour. "House calls" within 15 miles of the Ellsworth office will be charged a minimum of \$35.00/visit.

Patients registered with the "Dr. GreenLeaf" program are entitled to a 20% discount on all products purchased from NewLand Nursery for the time period allowed under this contract.

All live material purchased is guaranteed to be healthy to the following year's budding if planted by Doc's technicians, unless failure is due to circumstances beyond our control.

Qualified identification and treatment of parasites and diseases of turf, trees and shrubs is assured.

Dr. GreenLeaf technicians are fully insured.
